**June 5 – 9**

**Life in the Garden: Creepy Crawlers and All**

Come discover the magnificent world that lives in the garden. Learn about creepy crawlers and plants through books, art and activities. We will explore what it takes to start and maintain a healthy garden using garden areas on the Bruno campus. We will learn about composting and the variety of soil types needed to grow a beautiful garden!

**June 12 - 16**

**Community Helpers**

Campers will be introduced to many of the helpers in our community such as firefighters, policemen, and nurses to name a few. Campers will learn about the jobs of the community helpers through art, books, crafts and games. We will also have visits from a few special guests during the week to teach us about their jobs in the neighborhood. What do you want to be when you grow up?

**June 19 - 23**

**CAMP BRUNO!**

Learn all about camping this week as we set up a tent, use a compass and make a solar oven. We will explore the campus by going on a nature hike. We will make campfire art, learn campfire songs and enjoy traditional campfire snacks!

**June 26 - 30**

**Down on the Farm**

Are you curious about what life would be like on a farm? Join us at Bruno for some good old fashioned farm house fun! Students will engage in a variety of activities including old fashioned games and crafts. We will make homemade farm snacks including butter and ice cream.

**July 3– July 7**

**No Summer Camp**

**July 10 - 14**

**KIDZ Art Camp**

Montessori nurtures imagination, curiosity and creativity. If you like the sound of that, then this camp is for you! Our focus will be to collect household recyclable items and use our imagination to transform them into a work of art. Children will get an insight into recycling and appreciate Earth's limited resources.

**July 17 - 21**

**Travel the Fifty-Nifty States of the United States of America**

Let us pack our bags and travel the USA. We will start our journey with the Native American lands and the different homes – make our own teepee and see what it is like to live in one. Travel to the east and west coast and explore the US symbols. Find out and cook some of the favorite recipes of the north and south, especially the great American pie!

**July 24 - 28**

**Connecting in the Kitchen**

Learn to measure, pour, mix and make your own delicious snack. Also, what happens when you miss an ingredient...like the baking soda in the baking...oops! Each day children will learn a new skill (chopping, squeezing, grating) and prepare a healthy snack. On the last day, the children will make their own lunch (main course, dessert, and drink.)
